HOUSE GETS RESOLUTION AGAINST SUFFRAGE HOLLAND REFUSES TO GIVE UP EX-EMPEROR

SAYS DEMAND MUST COME FROM TEUTONS

Queen Advises Allied Committee She Is Not Party to Peace Treaty.

FAITH CAN'T BE BETRAYED

Asserted Netherlands Will Not Violate Tradition to Defer to Entente Wishes.

PARIS, Jan. 23.—The demand of the entente powers that Holland deliver up to them former Emperor William of Germany, that he may be tried "for a supreme offense against international morality, and the sanctity of treaties," has been refused by Holland.

In a note delivered this afternoon to the Foreign Office by the Dutch Minister, Holland takes the ground that the Dutch government is not a party to the Deace treaty, which condemned William Hohenzollern, and that it cannot recognize as an international duty the necessity to associate itself with "this act of high international policy of the powers."

It declares also that the constituent laws of the kingdom, and the tradition of the country, always a ground for refugees for the vanquished in international conflicts, will not permit the government to defer to the wishes of the entente by withdrawing from the former Emperor the benefits of its laws and traditions. The deligration is made that the people of the Notherlands cannot betray the a Netherlands cannot betray the ith of those who have confided them-ives to Holland's free institutions.

Holland's Reply to Ailies, ollowing is the reply of the Neth-nds government to the entente; by verbal note, dated January 15, "By verbal note, dated January 15, 220, given to the envoy of the Queen 120, given to the envoy of the Queen 120, given to the treaty of Versailles, deduced 1227 of the treaty of Versailles, deduced 1227 of the treaty of Versailles, deduced 1227 of the treaty of Versailles, defined give into their hands William of Hohenzollern, former Emperor of ermany, so that he may be tried. "In citing as premeditated violation in international treatios, as well as a stematio disregard of the most cred rules of the rights of man, a number of acts committed during the ar by German authority, the powers ace the responsibility, at least mority, upon the former Emperor.

Treaty,

"The government of the Queen, moved by imprescriptible reasons, cannot view the question raised by the demands of the powers except from the point of view of its own duty. It was absolutely unconnected with the origin of the war and has maintained, and not without difficulty, its neutrality to the cnd. It finds itself then a position different from that of the powers.

Rejects All Years.

Rejects All Suspicion.

"It rejects with energy all suspicion of wishing to cover with its sovereign right and its moral authority violations of the essential principles of the solidarity of nations, but it cannot recognize an international duty to associate itself with this act of high international policy of the powers.

The benefits of its laws and this tradition.

Justice and national honor, of which respect is a sacred duty, oppose this. The Netherlands people, moved by the sentiments to which in history the world has done justice, could not betray the faith of those who have confided themselves to their free institutions.

"The government of the Queen is pleased to believe that the powers will recognize the good grounds of these considerations, which rise above any consideration of personalities, and which seem to it so peremptory that they could not reasonably give rise to wrong interpretations."

I Phillips and his wife had been parted for several months, and Mrs. Phillips had been living with her parents.

They had been to church and were returning home when the assailant opened fire from behind a house with a shotgun. One charge of the shot penetrated the side of Mr. Mills, killing him instantly, another entered Mrs. Mills breast, and she fell to the ground mortally mounded. Mr. Mills was carrying one of the Phillips' childern when he received the fatal shot, but the child escaped uninjured. After Mr. and Mrs. Mills had fallen to the pavement dead, the assassin opened fire on Mrs. Phillips, firing two shots, but neither struck her.

Neighbors were attracted by the shots and rushed to the scene, where the hysterical daughter of the slain couple told the story of the assault. Officers were notified and a posse composed of officers and irate citizens was hastily formed.

Phillips is about 20 years of age.

Excitement is high here tonight and the feeling is tense, and it was feared summary justice would be dealt in case the man is captured.

SAN ANTONIO, TEXAS, Jan. 23.—
County sheriffs, officers of the ranger service, customs collectors and district attorneys testified before the Senate subcommittee investigating the Mexican situation, today they never had succeeded in obtaining from the Mexican authorities any co-operation in the prevention of border vaids. The declarations of these witnesses was supported by that of others, who added to the committee's record details of numerous attacks made by Mexicans during the "border war of 1915-16."

Testimony corroborative of charges that Carranza and other Mexican officials were aware of and encouraged the leaders, who were operating under the "plan of San Diego," was given. Sheriff Octavio Guerra, a naturalized Mexican of Starr County, told of a confession made to him by one of the raiders whom he captured, in which he was informed Carranza soldiers were directed by Carranza officers.

The forces in the House favoring the measures were led by Representative Husted, Republican, New York, who, however, objected to the first two sections of the Graham bill, and Representative Blanton, Demodrat, Texas, who declared the Republican steering committee had favored the proposed by organized labor, "and Mr. Gompers came with a veiled threat to the Republican party."
